

MTCOA MEETING MINUTES
CENTURION STONE IN DOWNTOWN NASHVILLE
JANUARY 20, 2011

President Terry Franklin called the meeting to order at 9:33 AM.

No treasurer's report was available at the meeting as the transfer of information was still being processed at this time. That report will be given at next month's meeting. In addition, the minutes from December's meeting were not available for handout. Those minutes will be available at next month's meeting as well as the January minutes for vote of approval. Minutes for December 2010 and January 2011 will also be posted on the website.

Karen Smith, President of CRCA (Cumberland Region Codes Association), briefly informed members of CRCA in attendance that a newsletter/handout was available containing the treasurer's report and other information for their code organization.

President Terry Franklin informed the members that the class/meeting for February is still being finalized and that no details were available for announcement today. That information will be posted on the website as soon as it becomes available. The class in March has been scheduled and will be conducted by Steve Yunker, Master Plumber and Plumbing Inspector for the City of Hendersonville. It will be on the 2006 International Plumbing Code covering sanitary drainage, plumbing fittings, etc.

Special thanks and appreciation was extended to Tim Pardue, President of Centurion Stone, and his staff for their generosity in hosting the event and for conducting the class.

There being no further business the meeting was concluded. Following the meeting members listened to a short presentation about the Centurion Stone product and then watched a DVD of the precast stone history. At the conclusion of the video, members were divided into two small groups to tour the plant and then returned to the meeting room for a question and answer session.

**** ATTENTION MTCOA MEMBERS** – All class registrations **MUST** be completed online. Please indicate if you will **NOT** be staying for lunch so adjustments can be made if needed. Be sure to bookmark the link to MTCOA's website for easier access. <http://mtcoa.org>
